Terms of Wallet Use

Last Updated: April 05, 2018

Please read carefully these Terms of Wallet Use ("Terms") before using a TruePlay Web Wallet available at <https://wallet.trueplay.io> ("Wallet"). These Terms are an integral part of the TruePlay Terms and Conditions, available on the Website. Therefore, if you do not agree with these Terms, you must not access or use the Website, buy or store TruePlay Tokens (TPLAY).

1. GENERAL PROVISIONS

These Terms define basic mutual rights and obligations of the company and Users, either using Wallet or just visiting certain pages of the Website, during their use of the Wallet, including but without limitation, for the purpose to perform certain transactions.

These Terms are effective at the time the User begins using the Wallet. If any User does not agree with these Terms in general or any part of it, such User should withhold from using the Wallet. These Terms are inalienable part of TruePlay Terms and Conditions. In terms not regulated by these Terms, the TruePlay Terms and Conditions shall apply to the relationships that arise hereunder.

2. REGISTRATION AND ACCOUNT

Wallet functions as a free, open source, and multi-signature digital wallet. The Wallet does not constitute an account where we or other third parties serve as financial intermediaries or custodians of your tokens. TruePlay Tokens (TPLAY) are an intangible asset, they exist only by virtue of the ownership record maintained in the TruePlay network.

You must meet certain eligibility criteria to use Wallet or its Services, provided in the general TruePlay Terms and Conditions. In addition to general eligibility criteria, the User represents/warrants and accepts that:

- (a) there are certain risks, including, but not limited to, risk of losing access to Wallet due to loss of passwords, risks associated with the TruePlay Protocol, risk of mining attacks, risk of hacking and security weaknesses etc.;
- (b) that there is no warranty that the Wallet services will be uninterrupted or error-free and why there is an inherent risk that the Wallet services could contain weaknesses, vulnerabilities or bugs causing, inter alia, the complete loss of TruePlay Tokens (TPLAY);

In order to access and use the Wallet, you shall create an account with the Wallet software. You agree to: (a) provide accurate, current and complete information when creating the account; (b) maintain and promptly update your account information to keep it accurate, complete, and current; (c) maintain the security and confidentiality of your login credentials and restrict access to your account and your computer; (d) promptly notify the Company if you discover or otherwise suspect

any security breaches related to the Wallet; and (e) take responsibility for all activities that occur under your account and accept all risks of unauthorized access.

3. ACCOUNT SECURITY

If you choose, or are provided with, a user name, password, or any other piece of information as part of our security procedures, you must treat such information as confidential, and you must not disclose it to any other person or entity. You also acknowledge that your account is personal to you and agree not to provide any other person with access to the Wallet or portions of it using your user name, password, or other security information.

We reserve the right to withdraw or amend the Wallet, and any service or material we provide on the Website, in our sole discretion without notice. We will not be liable if for any reason all or any part of the Wallet is unavailable at any time or for any period. From time to time, we may restrict access to Users to some parts of Wallet, to certain accounts or the whole of the Website, including registered or authorized Users.

You are responsible for:

- (a) making all arrangements necessary for you to have access to the Wallet;
- (b) ensuring that all persons who access the Wallet through your internet connection are aware of these Terms and comply with them;
- (c) maintaining and promptly update your Account information if it would be needed;
- (d) maintaining the security of your account by protecting your password and restricting access to your account;
- (e) all activities that occur under your account and you accept all risks of any authorized or unauthorized access to your account, to the maximum extent permitted by law;
- (f) for not losing your initially generated password to access the Wallet, seeing that you will not be able to restore it or generate the new one with Wallet software.

You agree to notify us immediately of any unauthorized access to or use of your username or password or any other breach of security. You also agree to ensure that you exit from your account at the end of each session. You should use particular caution when accessing your account from a public or shared computer so that others are not able to view or record your password or other personal information.

We have the right to disable any username, password, or other identifier, whether chosen by you or provided by us, at any time in our sole discretion for any or no reason, including if, in our opinion, you have violated any provision of these Terms. The Company may, in its sole discretion, limit the number of accounts that you may hold, maintain or acquire.

If you lose access to your Wallet and you have not separately stored a backup of your Wallet and corresponding password, you acknowledge and agree that any TruePlay Tokens (TPLAY) you have associated with that Wallet will become inaccessible. All transaction requests are

irreversible. The Company, its employees and affiliates cannot retrieve your passwords if you lose or forget them and cannot guarantee transaction confirmation as they do not have control over the TruePlay network.

4. ACCEPTABLE USE

When accessing or using the Wallet, you agree that you will not violate any law, contract, intellectual property or other third-party right or commit a tort, and that you are solely responsible for your conduct while using our Wallet. The User certify to us that any TruePlay Tokens (TPLAY) used by the User in connection with the Wallet and it services are either owned by him or that the User are validly authorized to taking part in using such funds in such Services. The Company do not store cryptocurrencies on their own servers or servers of it User. Cryptocurrency is stored on the TruePlay Blockchain. Blockchain is a chain of transaction blocks built under certain rules. A block contains both open (transaction data, if it is a transaction block, or data on association of a balancing block with a certain Wallet) and encrypted (technical data on transaction in a block, or data on history of transactions in a balancing block) data. Each subsequent block is connected to its predecessor. Thus, there are two kinds of blocks. A transaction block contains data on just one transactions. Balancing blocks are intended to prevent complexity growth of current Wallet state calculation when the Blockchain extends. The mechanism of 'self-optimizing Blockchain' is based on balancing blocks.
